compared to industrial strength database products such as microsoft s sql server access is a breeze to use it runs on pcs rather than servers and is ideal for small to mid sized businesses and households but access is still intimidating to learn it doesn t help that each new version crammed in yet another set of features so many in fact that even the pros don t know where to find them all access 2007 breaks this pattern with some of the most dramatic changes users have seen since office 95 most obvious is the thoroughly redesigned user interface with its tabbed toolbar or ribbon that makes features easy to

locate and use the features list also includes several long awaited changes one thing that hasn t improved is microsoft s documentation to learn the ins and outs of all the features in access 2007 microsoft merely offers online help access 2007 the missing manual was written from the ground up for this redesigned application you will learn how to design complete databases maintain them search for valuable nuggets of information and build attractive forms for quick and easy data entry you ll even delve into the black art of access programming including macros and visual basic and pick up valuable tricks and techniques to automate common tasks even if you ve never touched a line of code before you will also learn all about the new prebuilt databases you can customize to fit your needs and how the new complex data feature will simplify your life with plenty of downloadable examples this objective and witty book will turn an access neophyte into a true master

think you have to be a technical wizard to build a great web site think again if you want to create an engaging web site this thoroughly revised completely updated edition of creating a site the missing manual demystifies the process and provides tools techniques and expert guidance for developing a professional and reliable web presence whether you want to build a personal web site an e commerce site a blog or a web site for a specific occasion or promotion this book gives you detailed instructions and clear headed advice for everything from planning to launching from picking and buying a domain name choosing a hosting firm building your site and uploading the files to a web server this book teaches you the nitty gritty of creating your home on the ready to use building blocks creating your own web site doesn t mean you have to build everything from scratch you ll learn how to incorporate loads of pre built and freely available tools like interactive menus paypal shopping carts google ads and google analytics the modern today s best looking sites use powerful tools like cascading style sheets for sophisticated page layout javascript for rollover buttons and cascading menus and video this book doesn t treat these topics as fancy frills from step one you ll learn easy ways to create a powerful site with these tools blogs learn the basics behind the s most popular form of self expression and take a step by step tour through blogger the google run blogging service that will have you blogging before you close this book this isn t just another dry uninspired book on how to create a web site creating a site the missing manual is a witty and intelligent guide you need to make your ideas and vision a web reality

microsoft excel continues to grow in power sophistication and capability but one thing that has changed very little since the early 90s is its user interface the once simple toolbar has been packed with so many features over the years that few users know where to find them all microsoft has addressed this problem in excel 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use

unfortunately microsoft s documentation is as scant as ever so even if users can find advanced features they probably won t know what to do with them excel 2007 the missing manual covers the entire gamut of how to build spreadsheets add and format information print reports create charts and graphics and use basic formulas and functions like its siblings in the missing manual series this book crackles with a fine sense of humor and refreshing objectivity about its subject guiding readers through the new excel with clear explanations step by step instructions lots of illustrations and friendly time saving advice it s a perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office information

cascading style sheets can turn humdrum websites into highly functional professional looking destinations but many designers merely treat css as window dressing to spruce up their site s appearance you can tap into the real power of this tool with css the missing manual this second edition combines crystal clear explanations real world examples and dozens of step by step tutorials to show you how to design sites with css that work consistently across browsers witty and entertaining this second edition gives you up to the minute pro techniques you ll learn how to create html that s simpler uses less code is search engine friendly and works well with css style text by changing fonts colors font sizes and adding borders turn simple html links into complex and attractive navigation bars complete with rollover effects create effective photo galleries and special effects including drop shadows get up to speed on css 3 properties that work in the latest browser versions build complex layouts using css including multi column designs style web pages for printing with css the missing manual second edition you ll find all new online tutorial pages expanded css 3 coverage and broad support for firebox safari and other major web browsers including internet explorer 8 learn how to use css effectively to build new websites or refurbish old sites that are due for an upgrade

in early reviews geeks raved about windows 7 but if you re an ordinary mortal learning what this new system is all about will be challenging fear not david pogue s windows 7 the missing manual comes to the rescue like its predecessors this book illuminates its subject with reader friendly insight plenty of wit and hardnosed objectivity for beginners as well as veteran pc users windows 7 fixes many of vista s most painful shortcomings it s speedier has fewer intrusive and nagging screens and is more compatible with peripherals plus windows 7 introduces a slew of new features including better organization tools easier wifi connections and home networking setup and even touchscreen computing for those lucky enough to own the latest hardware with this book you ll learn how to navigate the desktop including the fast and powerful search function take advantage of window s apps and gadgets and tap into 40 free programs breeze the with internet explorer 8 and learn the

email chat and videoconferencing programs record tv and radio display photos play music and record any of these to dvd using the media center use your printer fax laptop tablet pc or smartphone with windows 7 beef up your system and back up your files collaborate and share documents and other files by setting up a workgroup network

photoshop elements 7 includes lots of new tools for sprucing up your photos like the scene cleaner that lets you get rid of unwanted elements and the smart brush that makes touch ups a breeze but the one thing you won t find in elements is reader friendly guidance on how to get the most out of this powerful program enter photoshop elements 7 the missing manual ready to explain not only how the tools and commands work but when to use them with this bestselling book now in its 5th edition you ll learn everything from the basics of loading photos into elements to the new online photo sharing and storage service that adobe s offering for free at photoshop com there s so much to elements 7 that knowing what to do and when to do it is tricky that s why this book carefully explains all the tools and options by putting each one into a clear easy to understand context learn to import organize and fix photos quickly and easily repair and restore old and damaged photos and retouch any image jazz up your pictures with dozens of filters frames and special effects learn which tools the pros use you ll finally understand how layers work create collages and photo layout pages for scrapbooks and other projects fix your photos online and synch the changes to your own photo library as always author barbara brundage lets you know which features work well which don t and why all with a bit of wit and good humor dive into adobe s outstanding photo editor and find out why this missing manual is the bestselling book on the topic

elements 9 offers much of photoshop s power without the huge price tag it s an ideal tool for most image editing buffs including scrapbookers photographers and aspiring graphic artists but elements still doesn t come with a decent manual this bestselling book will help you get the most out of the program from the basics to advanced tips for both windows and mac quickly learn your way around customize elements to suit your working style get to work right away import organize and make quick image fixes with ease retouch any image learn how to repair and restore your old and damaged photos add some pizzazz give images more zip with dozens of filters frames and special effects find your creative flair create scrapbooks greeting cards photo books and more use advanced techniques work with layers blend modes and other tools try out your new skills download practice images and try new tricks as you learn

ideal for scrapbookers serious and casual photographers and budding graphic artists alike photoshop elements 8 is more powerful and easier to use than previous versions but

figuring out how and when to use the program s tools is still tricky with this book you ll learn not only what each tool does but also when it makes the most sense to use it and why you get easy to follow step by step instructions for everything from importing photos to organizing editing sharing and storing your images and if a feature isn t all that it s cracked up to be we ll tell you how do you use the photomerge exposure how do quick fix previews work with a gentle introduction to get you started quickly and advanced tips to help you produce really creative work this missing manual provides the answers you need get crystal clear and jargon free explanations of every feature learn to import organize back up and fix photos quickly and easily repair and restore old and damaged photos and retouch any image jazz up your pictures with dozens of filters frames and special effects remove unwanted objects from images with the new recompose tool learn advanced techniques like working with layers and applying blend modes download practice images and try new tricks right away
