this authoritative multidisciplinary overview of altered states of consciousness asc shows how their study is necessary to gain a fundamental understanding of human

culture history and biology altered consciousness is one of humanity's most mystical and life altering aspects these remarkable changes in mental state have understandably been a topic of general interest and scientific inquiry across time beyond simply satisfying our curiosity however studies focused upon altered consciousness can also bring valuable insights into our experience biology and culture this unprecedented two volume set will intrigue anyone interested in psychology biology and neurology science history arts and the humanities and literature on consciousness from general readers to scholars and researchers an impressive collection of international contributors address altered states of consciousness from the perspectives of history evolution psychology culture literature human biology contemporary science and society seeking to illuminate the causes effects and meanings of altered consciousness the first volume provides an introduction and centers on the importance of altered states in history culture and the humanities while the second volume presents biological and psychological perspectives on altered consciousness and examines their potential for healing and pathology

the affinities between pierre hadot's and michel foucault's interpretations of ancient philosophy as well as their impact are well known however these interpretations have been criticized in several crucial points this book provides the first extensive critical assessment of these interpretations it brings together specialists in ancient philosophy as well as hadot and foucault scholars in order both to explore criticisms and clarify hadot's and foucault's accounts in doing so it not only offers an overview of the main trends in philosophy as a way of life but also recasts the debate and opens new paths of inquiry in the field

austinian themes offers a reconstruction of philosophical views on several themes developed by j l austin exploring austin's work in detail through a series of thematically organized chapters marina sbisà draws on both published work as well as unpublished manuscript notes to offer a defence of austin's speech act theory characterized by a specific notion of illocution against some important criticisms sbisà offers a reconstruction of austin's responsibility based conception of action drawing on his remarks on acts and actions in how to do things with words and in later papers exploring austin's contributions to epistemology and the philosophy of perception including his realist stance anti scepticism and presentational view of perception sbisà analyses the roles that he assigns to knowledge in the dynamics of assertion on the theme of truth austin's claims are expounded and explained as worthy of reassessment other chapters explore the ways in which austin deals with sense reference family resemblances truth falsity assessments and context dependence austin's most famous statement of method as outlining a linguistic phenomenology is cast as analogous to husserl's phenomenology in adopting an epoché which isolates language rather than consciousness a reading which helps to clarify several characteristic positions adopted by austin on metaphilosophical themes sbisà analyses the notion of ordinariness distinguishing it from common sense and the endorsement of the linguistic turn approaching it instead in terms of the by default nature of the social bond and conversational cooperation various

recurrent aspects of austin s philosophy are illuminated the opposition to dichotomies the attention paid to intersubjectivity the commitment to a sober philosophy and a strong sense of human situatedness

american women novelists of the late nineteenth and early twentieth centuries registered a call for a new sexual freedom dale bauer contends by creating a lexicon of sex expression many authors explored sexuality as part of a discourse about women s needs rather than confining it to the realm of sentiments where it had been relegated if broached at all by earlier writers this new rhetoric of sexuality enabled critical conversations about who had sex when in life they had it and how it signified whether liberating or repressive sexuality became a potential force for female agency in these women s novels bauer explains insofar as these novelists seized the power of rhetoric to establish their intellectual authority thus bauer argues they helped transform the traditional ideal of sexual purity into a new goal of sexual pleasure defining in their fiction what intimacy between equals might become analyzing the work of canonical as well as popular writers including edith wharton anzia yezierska julia peterkin and fannie hurst among others bauer demonstrates that the new sexualization of american culture was both material and rhetorical

ritual has long been a central concept in anthropological theories of religious transmission ritual performance and the senses offers a new understanding of how ritual enables religious representations ideas beliefs values to be shared among participants focusing on the body and the experiential nature of ritual the book brings together insights from three distinct areas of study cognitive neuroanthropology performance studies and the anthropology of the senses eight chapters by scholars from each of these sub disciplines investigate different aspects of embodied religious practice ranging from philosophical discussions of belief to explorations of the biological processes taking place in the brain itself case studies range from miracles and visionary activity in catholic malta to meditative practices in theatrical performance and include three pilgrimage sites the church of the holy sepulchre in jerusalem the festival of ramlila in ramnagar india and the mountain shrine of the lord of the shiny snow in andean peru understanding ritual allows us to understand processes at the very centre of human social life and humanity itself making this an invaluable text for students and scholars in anthropology cognitive science performance studies and religious studies

the mayan indians of the yucatan peninsula through a very complicated process were able to study the sun by monitoring the planet venus this formed the basis for their complex calendarical system which stretches over thousands of years they discovered the way the sun rotates creates sunspots after twenty sunspot cycles which occurred approximately every thirty seven hundred years the sun s rotational orbit would change causing the earth to turn on its axis this is due to occur again on december 22 2012 on this day the world as we know it will end austin green a forty year old theoretical physicist and his nineteen year old son zeo barely escape from los angeles before a third massive earthquake cracks the north american plate and the entire west coast sinks into the ocean in a matter of minutes now in the year is

Zen And The Brain Toward An Understanding Of Meditation And Consciousness By Austin James H 1999 Paperback

2011 they're struggling to re-build a society in the coastal city of Phoenix Arizona with others who've survived the precursors to the pole shift a long string of natural disasters that had been plaguing the earth since 2009 the United States economy has fallen making money worth nothing the barter system is used for everything and horses and bicycles are again common modes of transportation Austin once a well-recognized physics professor and researcher at the California Institute of Technology still harbors the slight hope that there will again come a time when our scientific technology will be applied to real life now while everyone awaits the outcome of the final pole shift he teaches cutting edge physics to a small class of students of various ages the future parents of the root race of humans that will hopefully re-build society but Austin is restless he can't believe what has become of the planet and the humans who once ruled it he has to know what the future holds does the music play forever will all life on earth end before the middle of the twenty-first century thus destroying everything mankind has ever discovered since the beginning of time as we know it or have we learned from our past mistakes will we build a future society more in tune with nature or will greed cause us to make the same mistakes over again combining Austin's expertise in hyperspace manipulation and Zeo's deep-seeded New Age intuition they devise an elaborate plan utilizing a home-made proton accelerator the energy vortexes in Sedona Arizona a quartz crystal and the energy generated on the day of the winter solstice when the sun changes its rotation to construct a wormhole two hundred years into the future and escape just seconds before the earth turns on its axis does the music play forever is a story of one man's discovery of not only his true nature but also the true nature of the universe and mankind's innate connection to it it is the ultimate example of the law of cause and effect and the interconnectedness of everything in the universe
